DESIGN

CONCEPT:

Whether guests are seeing a weeklong retreat or a brief lunch break respite, The Spa at The Island Hotel offers a restorative and tranquil oasis. A color palette of soft golden tones accented by the pale aquatic blues of the neighboring ocean provides a soothing backdrop; while an array of water treatments – including a rippling water wall at the entry – offers a calming effect. Trickling fountains combined with the aromatic scent of botanical oils further enhance this quintessential spa experience.

The sleek yet inviting minimalist decor also features pale maple wall paneling and cabinetry; pale beige and gold German stone; gold-toned iridescent glass mosaic tiles; vaulted ceilings; muted lighting and plush furnishings.

FITNESS:

Also newly renovated, the complimentary fitness facilities are located adjacent to the resort-style pool, and feature the latest in exercise technology, including 5 new Life Fitness treadmills; 3 Elliptical trainers, 3 Lifecycles, 1 recumbent Lifecycles and 2 Stairmaster 4000s. In addition, a complete range of Life Fitness weight equipment and machines, stretching devices and exercise balls are on-site.

Personal trainers are available by appointment.
